

Join Us - Researchers

Our research team is central to developing market knowledge and information for the firm. It is responsible for delivering assignment and non-assignment based support to assist in the execution of the firm's search activities. The primary objective of the research team is to provide cutting edge market information rapidly and comprehensively to our consultants, applicants, and clients.

Our research process incorporates desk and telephone research, applicant interaction and client exposure.

We offer talented researchers or those interested in becoming part of our team the opportunity to gain exposure to a cross-section of mandates and develop research reports for a variety of our clients. We encourage professionals who would like to be part of a dedicated research function operating within an entrepreneurial framework where your contribution is properly valued and rewarded to consider a career with us.

We seek personalities that can make an impact and in exchange we offer an opportunity to be an integral part of a growing team, with the freedom to develop your career in a dynamic business with unlimited room to grow.

About Aquis Search

Aquis Search is a boutique executive search and selection firm focused on recruiting Legal, Risk and Compliance professionals. From our base in Hong Kong we work at all levels, recruiting and managing talent across the corporate, legal and financial community. We operate within a consultative framework and have developed a long standing reputation for our industry knowledge and for providing a high level of personalised service.

For our applicants we provide outstanding career opportunities, market insights and trusted career guidance and advice. For our clients we offer bespoke recruitment services designed to meet the needs of each assignment.

Our geographical coverage extends beyond our offices in Hong Kong utilising our extensive networks in many of the world's major financial centres.

By focusing on areas of business where our skills and resources deliver timely and effective solutions we connect talent with opportunity in a complex global market.
